

PBARIA

PBARIA MAKES Quality Products

We provide 100% realistic products.

ABOUT US

Welcome to PBARIA LTD., Bangladesh's leading ISO Certified manufacturer of human hair systems and wigs. With a workforce comprised of about 90% women, we are dedicated to delivering excellence, innovation, and diversity to customers worldwide.

At PBARIA, our vision is ambitious yet clear: to become the world's most trusted authority in hair systems and wigs manufacturing. We strive to uphold the highest standards to trustworthiness and reliability in everything we do.

Our mission is rooted in our commitment to provide the finest quality hair systems and wigs, featuring excellent designs, at the very best possible prices. We value and honor our wholesalers, resellers, and customers, forging long-term relationships based on mutual trust and respect.

When you choose PBARIA, you're selecting unbeatable quality assurance, reliability, and affordability. Let us assist you in finding the exact hair systems & wigs for your customers. Here are some variations of hair systems & wigs that we manufacture.

Mono Base: Monofilament is a strong, solid, breathable and durable material. This is why Monofilament hair systems & wigs are the best option to them who place more value on the economical and practical aspects of their purchases.

Lace Base: Lace is a lightweight, breathable and soft material. Lace hair systems and wigs are popular as these can give a virtually undetectable hairline. Lace material comes in different colors that can resemble different skin tones. This is beneficial in helping give the illusion that the hair is growing out of the scalp.

Poly Skin Base: This is usually a thin and light hair system base. Other benefits include an easy attachment process while skin bases are very comfortable overall.

Silk Top Base: A silk top is an addition to a hair system or wig that allows for an extremely natural look. PBARIA signature silk top is made of a triple silk layer material that discreetly conceals the hair systems and wigs knots, creating a 'growing-from-own-scalp' look.

Custom Made: Custom-made hair systems & wigs are perfect for those who seeking a comfortable and natural fit. In order to make these hair systems & wigs, it is must needed to collect customer's head measurements exactly. These measurements are used to create a hair system or wig that fits and looks perfect.

Everyone deserves to look and feel great. PBARIA is here to help your customers to do that with a top-quality human hair systems and wigs. Contact us today for more information about our products.
